

The Checkpoint Details

1. Reach Out.

Shoot us an email or a DM. We'll send over a quick questionnaire to figure out what you need, whether we're a good fit, and set up a time to chat—coffee if you're local, online if you're not.

2. Let's Meet.

We'll go over your custom list of needs, your investment, and walk through your current space, your goals, and your timeline.

3. Sign & Go.

Once the dotted line is signed, we're off! We'll schedule your first design meeting and start pulling ideas together.

4. Mood Board Time.

We'll present inspiration boards, an initial plan for the big-ticket items, and start dialing in on what makes your heart beat faster.

5. Let's Refine.

We tweak, adjust, and balance your wants, your needs, what's possible, and what our design instincts are telling us. Sometimes it's fast, sometimes it takes a little finesse. But, clear communication and knowing how you want to live day-to-day are the keys.

6. Handing It Off.

Plans are done, decisions are made, now we give it over to the builders, makers, and trades to bring it all to life.

7. Don't Fret, We're Still Here.

We'll pop in to document the progress, answer questions, troubleshoot, lend a hand, and make sure everything's progressing smoothly.

8. Shoot Day!

You made it. Your space is looking gorgeous and ready for its close-up. We'll plan for a day of styling and shooting with some of our own props and goods, and we'll make sure to leave your space perfectly tidy
